Report Sprint 3 DEV
(Sprint 6)

Actual dates of the sprint: 1st of January 2024 – 14th of January 2024
This sprint we had to drop the postponed tasks as well as the CV Processing task. The search and filter task has been repurposed, since it has only been partially implemented (backend only), which can still be used for external API usage. Even with these modifications, we believe we have a stable MVP.

User stories & their acceptance criteria

1. As a user, I want to be able to change my password, in case I feel unsafe about my current one.

   AC1: User changes password successfully
   GIVEN the user is logged in
   WHEN the user navigates to the "Change Password" option in the account settings
   AND enters the correct current password
   AND enters a new password that meets the system's security requirements
   AND confirms the new password
   THEN the system displays a confirmation message for successful password change
   AND the user should be able to log in with the new password

   AC2: User cannot change password under certain conditions
   GIVEN the user is not logged in
   WHEN the user attempts to change the password
   THEN the system will not allow access to the "Change Password" option

   AC3: User enters incorrect current password
   GIVEN the user is logged in
   WHEN the user navigates to the "Change Password" option in the account settings
   AND enters an incorrect current password
   THEN the system will display an error message for incorrect current password

AC4: User enters a new password that does not meet security requirements
    GIVEN the user is logged in
    WHEN the user navigates to the "Change Password" option in the account settings
    AND enters the correct current password
    AND enters a new password that does not meet the system's security requirements
    THEN the system should display an error message for password requirements

AC5: Technical issues prevent password change
    GIVEN the user is logged in
    WHEN the user attempts to change the password
    AND there are technical issues preventing the password change
    THEN the system will display an error message explaining the issue

2. As a manager, I want to be able to create candidate accounts, so that I can test functionalities that involve candidates.

AC1: Manager creates a candidate account successfully
    GIVEN the manager is logged in
    WHEN the manager navigates to the "Create Candidate Account" option
    AND fills in the required candidate details such as name, email
    AND clicks the "Create Account" button
    THEN a new candidate account should be created

AC2: Manager tries to create a candidate account with incomplete details
    GIVEN the manager is logged in
    WHEN the manager navigates to the "Create Candidate Account" option
    AND fills in incomplete candidate details
    AND clicks the "Create Account" button
    THEN the system will display an error message for incomplete details
    AND no candidate account should be created

3. As a manager, I want specific pages to have restricted access, so that unauthorized users don't interact with things they should not.

   AC1: Authorized user attempts to access an restricted page
   GIVEN a user with the required role is logged in
   WHEN the user attempts to access an restricted page
   THEN the system will allow access without any restrictions

   AC2: Unauthorized user attempts to access a restricted page
   GIVEN a user without the required role is logged in
   WHEN the user attempts to access a restricted page
   THEN the system will deny access and display an appropriate error message

4. As an interview participant, I want to be able to share files in an interview room, so that I can transfer information in a more structured way.

   AC1: Interview participant shares a file successfully
   GIVEN the interview participant is logged in
   WHEN the participant joins an interview room
   AND clicks on the "Share File" option
   AND selects a file to upload
   AND clicks the "Upload" button
   THEN the system should display a confirmation message for successful file upload
   AND the shared file should be visible to all participants in the interview room
   AND other participants should be able to download the shared file

   AC2: Interview participant encounters issues while sharing a file
   GIVEN the interview participant is logged in
   WHEN the participant joins an interview room
   AND clicks on the "Share File" option
   AND encounters a technical issue during the file upload process
   THEN the system should display an error message explaining the issue
   AND no changes to the file sharing status should occur

5. As a user, I want to see a FAQ page, so that I can get a bigger picture about the common aspects of the application.

   AC1: User views the FAQ page successfully
   GIVEN the user is on the website
   WHEN the user navigates to the "FAQ" section
   THEN the system will display a list of frequently asked questions and their corresponding answers

6. As a third party job provider, I want to have a filter and search API for jobs, so that I can provide my users with available jobs from this company.

    AC1: Third-party job provider successfully filters and searches for jobs
      GIVEN the third-party job provider has access to the job filter and search API
      WHEN the provider sends a request with valid filter parameters and search queries
      THEN the system will respond with a list of jobs matching the specified criteria
    AC2: Third-party job provider encounters issues with the API request
      GIVEN the third-party job provider has access to the job filter and search API
      WHEN the provider sends a request with invalid or missing parameters
      THEN the system will respond with an error message indicating the issue

Sprint 3 DEV (Sprint 6) Tasks:

- **Password reset via email** -- Done
  - o Urgent priority
  - o Medium size

- **Create user account (only administrators)** – Done
  - o High priority
  - o Large size

- **Modify the application to apply the established user permissions** – Done
  - o Medium priority
  - o Large size

- **Implement file-upload** – Done
  - o Low priority
  - o Small size

- **Create a secured system for interview room joining** – Done
  - o Low priority
  - o Medium size

- **Create a FAQ page** – Done
  - o Low priority
  - o Medium size

- **Add search and filter (backend)** – Done
  - o Low priority
  - o Medium size

- **Definitize design for user related pages** – Done
  - o Low priority
  - o Large size

- **Definitize design for job related pages** – Done
  - o Low priority
  - o Large size

- **Definitize design for application related pages** – Done
  - o Low priority
  - o Large size

- **Definitize design for interview related pages** – Done
  - o Low priority
  - o Large size

- **RPA CV Processing** – Removed
  - o Low priority
  - o X-Large size

- **RPA: Testing profile page** – Done
  - o Low priority
  - o X-Large size

- **RPA: Testing applications pages** – Done
  - Low priority
  - X-Large size

- **RPA: Testing authentication pages** – Done
  - Low priority
  - X-Large size

- **RPA: Testing jobs page** – Done
  - Low priority
  - X-Large size

Planned Capacity

	Max Limit	Team Hours
Team members	4	
Sprint Length (Days)	14	
Hours per day	10	
Daily stand-ups (Hours/Sprint)	0	0
Planning, Review, Retrospective, Refinement (Hours/Sprint)	2	8
Other meetings (Hours/Sprint)	6	20
Total Capacity (Hours)	159	
Total Meeting Time (Hours)	28
